Ningbo
SUNPRIDE
Mould Technology Co., Ltd.
Professional PDC Mould Maker

TECHNOLOGY RESEARCH AND DEVELOPMENT

Ningbo Sunpride is having very experienced designers and we are considering the mould life and quality as the most important factors. “Designing is the key of mould” which is our principle and we pay full attention to every process of the mould manufacturing.

Customers only need to provide DXF, DWG, PRT, SAT, IGES, STEP drawings or samples so that we can start designing, and once the design approved, production will start.

We have professional designing and flow analysis softwares which can meet all the demands from our customers.

COMPANY BRIEF INTRODUCTION

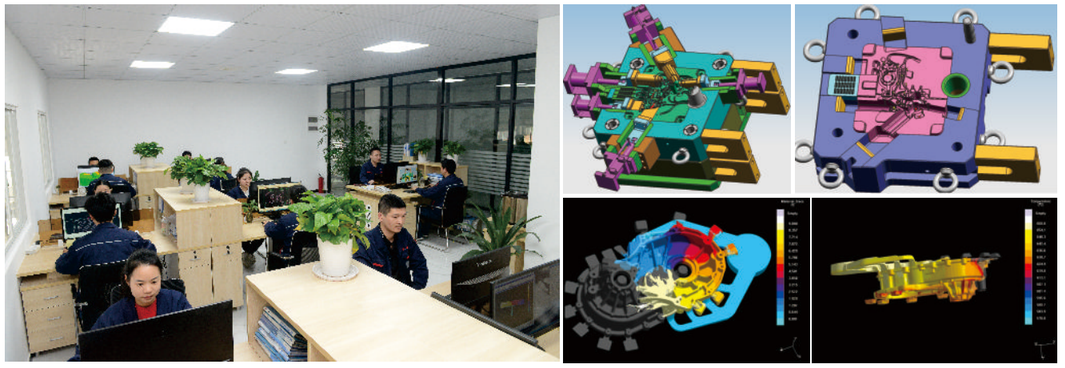

Ningbo Sunpride Mould Technology Co., Ltd. is located in the "hometown of mould"—Ningbo, Zhejiang Province, People's Republic of China, and we are specialized in PDC mould designing and manufacturing.

We have number of highly qualified technical staff with strict management system and reliable service. With high quality and favorable price, we have a competitive advantage in the market as well as customers' trust. We are manufacturing variety of moulds such as automotive parts, communication equipment products, LED parts, household appliances parts, high pressure pump body and so on…….

Our purpose is "customer oriented, quality first, keep innovation and perfection ".

Our company is equipped with a series of high precision machines, including die casting machines for trial purpose, more than 20 CNC machining centers, CNC lathes, ultrasonic cleaning and polishing machines, surface treatment equipments and die spotting press. We are using Japanese CMM machine—Mitutoyo and Video imaging machine to ensure the product quality.

"Ningbo Sunpride Mould Technology Co., Ltd. is your trustworthy partner".

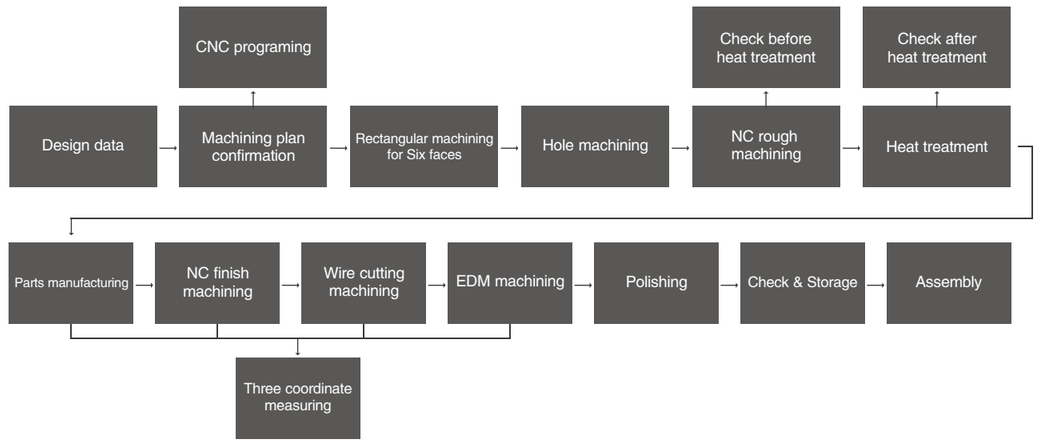

Technical Advantages

Sunpride Mould design is following the principles as below:

Reliable strength, best flow direction, full cooling, enough exhaust and minimum failure.

Production Process

MOULD MANUFACTURING LINE

To be the top mould maker
To achieve the best quality
To satisfy all our customer

Sophisticated machineries, measuring equipments and allied equipments are the key factors of manufacturing high precision moulds.

Sunpride is specialized in all kinds of complicated PDC moulds manufacturing, designing, researching, developing and after processing, with high quality mould, reasonable price and hence we won the market and customers' heart.

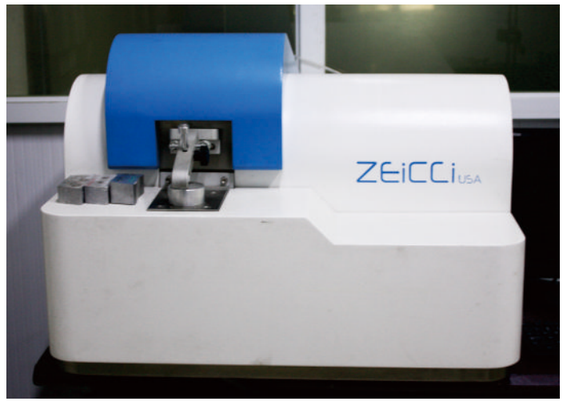

MOULD MANUFACTURING LINE

Regarding the inspection equipment, we are using Mitutoyo and video imaging machine to ensure the product accuracy. We also have our own X–ray machine to check blow holes for better quality.

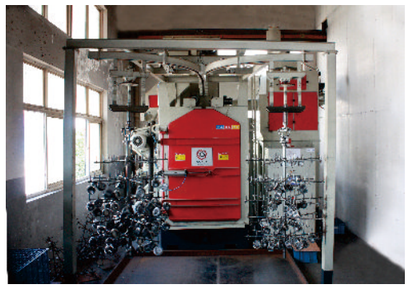

We have our own mould trial plant and equipped with more than 20 die casting machines, ranging from 280T to 1600T. All the die casting machines are fully automatic (ladle, spray and extractor) which can ensure the fastest delivery time and improve sample quality. Moreover, we have trimming press and we are also making trimming tools for customers' convenience.

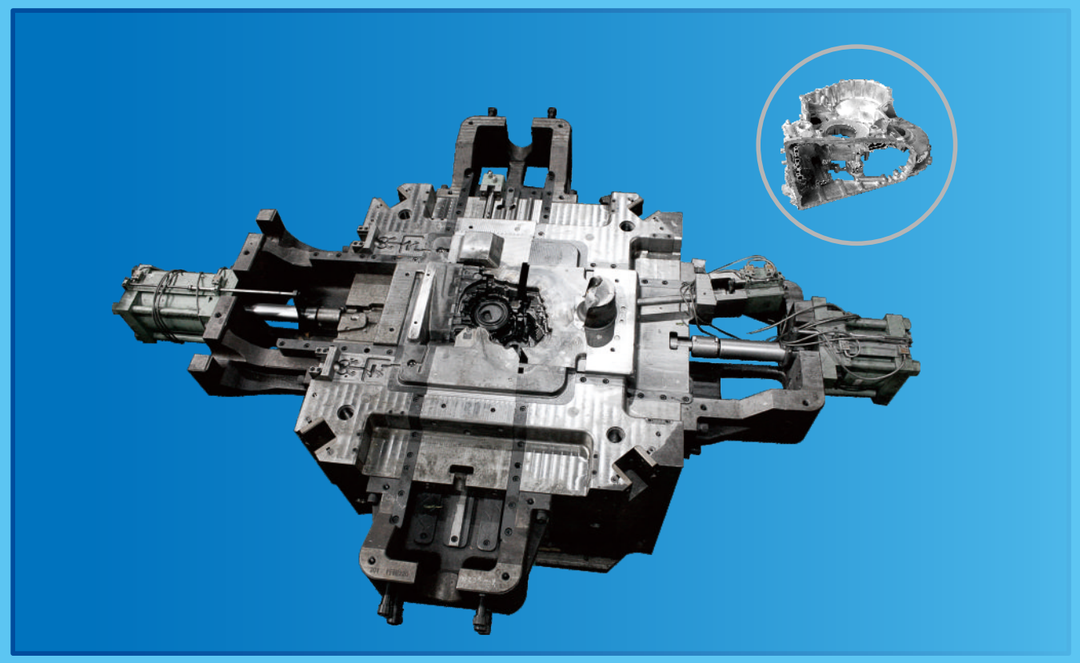

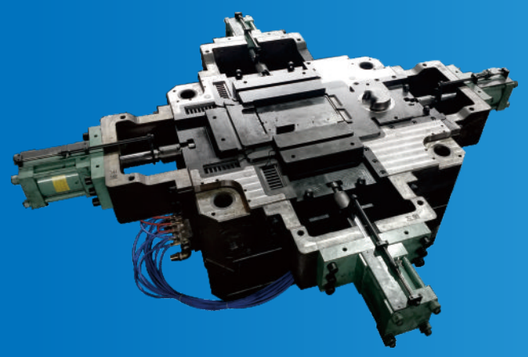

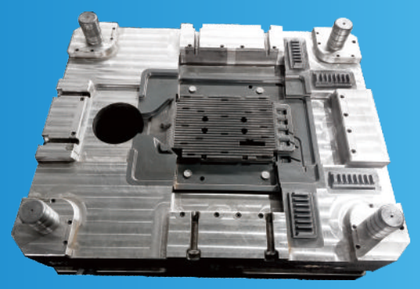

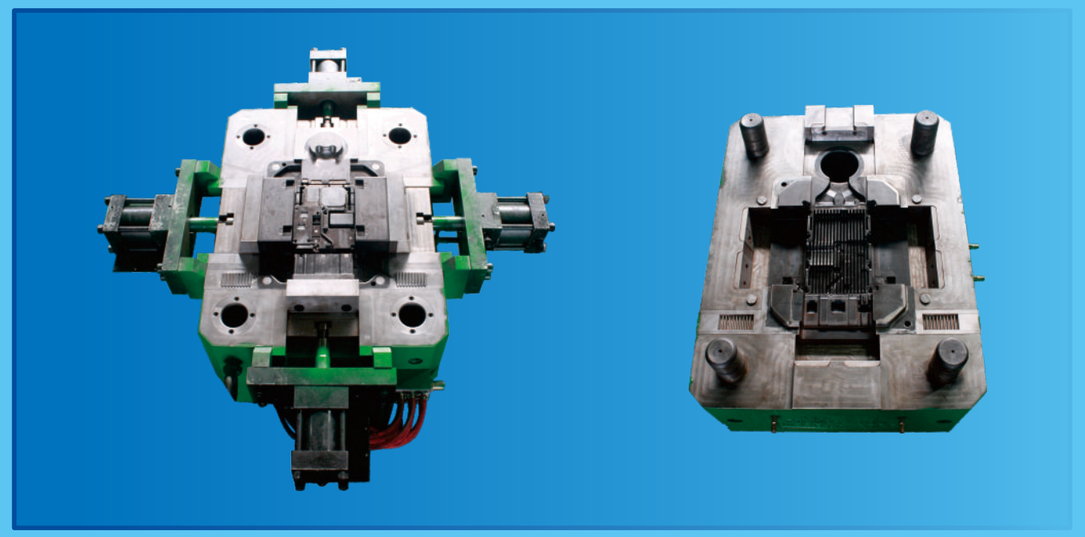

MOULD

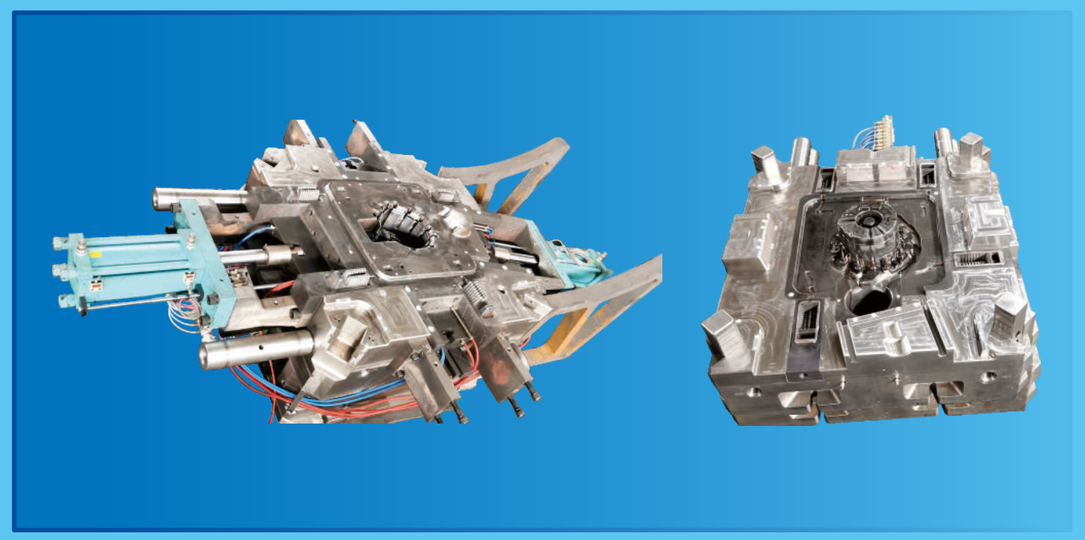

With advanced technology and reliable quality, providing the precise moulds to customers is our target. Ningbo Sunpride Mould Technology Co., Ltd. is your trustworthy partner.
